Information about Connection Data (Cookie Policy)

The IT systems and the software procedures used in the operation by websites acquire during their normal processing some personal data, whose transmission is necessary for the operation of the Internet communication protocols. Cookies are short fragments of text (letters and/or numbers) which allow the web server to store on the client (the browser) information to be recalled when visiting the same site (session technical cookies) or later, even after days (persistent cookies). Cookies are stored according to user preferences by the single browser on the specific device used (computer, tablet, smartphone).

Terrerosseportofino.it uses technical and statistical aggregate cookies to save the user's browsing session and perform other activities closely related to the operation of the website and aimed at optimizing the browsing experience and monitoring the traffic (for instance, to keep track of the chosen language or for the management of statistics by the site owner). The use of so-called "session cookies" (which are not permanently stored on the user's computer and disappear when the browser is closed) is strictly limited to the transmission of identification data necessary to allow the safe and efficient exploration of the site.

Terrerosseportofino.it neither collects through this website information of personal nature through systems for tracking and recording users, such as online request forms, nor uses own "persistent cookies".

Aruba.it hosts this page (link to the Privacy Policy). Terrerosseportofino.it also contains hypertext links to websites operated by Third Parties, which Terrerosseportofino.it cannot either control, nor can be considered liable for their content. The access and browsing on these websites which provide various tourism and services information, imply the installation of Third Party cookies and other tracking systems which this websites' owner cannot control: the user can decide whether to accept cookies continuing the browsing or can block and even delete the set cookies using the specific settings of each browser, which differ depending on the used websites and web applications (please see for instance the Privacy Policy of Firefox, Chrome, Internet Explorer, Safari, or Bing, used for maps). For example, in Firefox through the menu Tools-> Options -> Privacy, you can access a control panel where you can define whether to accept different types of cookies, block them or proceed to their removal, as well as for the social networks platforms Facebook and Google Plus, which can be accessed through the links in our website.
